

Modernization of waste collection in Vulcan Municipality

The project was implemented during December 2007 and March 2009. The budget of the project is 1 million euros and 85% grants from the amount. Main activities are:

- to build a waste sorting station
- to buy 2 compacting machines
- to buy and install on 4 different colours 84buc x 4 waste bins
- to buy 138 pieces galvanized containers.
